

**ITEM 571.7892XX25 -**

**TREATMENT AND DISPOSAL OF PAINT REMOVAL WASTE – NON-LEAD MATERIAL**

**1. DESCRIPTION:**

- 1.01 Under this item the waste material collected and packaged as specified in the environmental protection item(s) shall be removed from the temporary storage area and disposed of in accordance with all applicable local, state, and federal laws.

**2. MATERIALS:**

- 2.01 None

**3. CONSTRUCTION DETAILS:**

- 3.01 The Contractor shall hire a qualified sampling firm, subject to the approval of the Engineer, to extract samples of the waste material from each structure in accordance with ASTM E105.
- 3.02 The Contractor shall send the sampled waste material to a N.Y.S.D.E.C. and Dept. of Health certified laboratory, subject to the approval of the Engineer, for analysis. Upon receipt of the results of the analysis, they shall be submitted to the Engineer.
- 3.03 If the analysis results in the waste material being classified as hazardous, the Contractor will arrange for disposal through a Hazardous Waste Hauler licensed to do business in New York State.
- 3.04 All waste shall be documented, transported, treated, and disposed as required by the current Federal, State, and Local laws, rules and codes.
- 3.05 If the analysis results in the waste material being classified as non hazardous, the Contractor shall arrange for a permitted disposal service to transport the material to an appropriate landfill, in accordance with current Federal, State and Local laws, rules and regulations.

**4. METHOD OF MEASUREMENT:**

- 4.01 Payment for testing and non-hazardous waste disposal will be made at a lump sum price bid. In the event that hazardous waste treatment and disposal will be by force account.

**5. BASIS OF PAYMENT:**

- 5.01 The lump sum for this work includes all cost of testing and disposing of the waste material.

NOTE: XX represents number assigned by the designer and keyed to a particular structure.
