

ITEM 619.99230125 – ACCESSIBLE SHUTTLE ACCOMMODATIONS FOR PEDESTRAINS

1. DESCRIPTION:

- 1.01 This work shall consist of furnishing a shuttle bus service for pedestrians during periods when pedestrian access through the work site is not accommodated.

2. MATERIALS:

- 2.01 Signs - All signs necessary to alert pedestrians regarding the operation of the shuttle service shall be in conformance with the latest edition of Manual on Uniform Traffic Control Devices
- 2.02 Vehicles – The number and type of shuttle or shuttles provided shall be as specified in the Special Note entitled “Pedestrian Accommodations During Construction” including the minimum number of passengers that the shuttles are capable of transporting. The vehicles provided shall be equipped with all safety and operational equipment as required by State and Federal regulations and shall be wheelchair accessible as per the Americans with Disabilities Act Accessibility Guidelines for Transportation Vehicles. The vehicles shall also be currently licensed and registered in New York State.

3. CONSTRUCTION DETAILS:

- 3.01 The Contractor shall provide the shuttle service during the times and under the conditions noted in the Special Note entitled “Pedestrian Accommodations During Construction”. The shuttle route and pick up and drop off locations shall be as shown in the contract documents. The shuttle shall be run for the duration of the roadway closure or as noted in the special note. The shuttle shall follow a designated route and schedule, in accordance with the contract documents.
- 3.02 The shuttle service shall be furnished through a public transit authority or commercial carrier approved by the State of New York
- 3.03 The Engineer with the approval of New York State Department of Transportation may amend the service based on the actual demand and shall notify the Contractor of the amendments. Changes to schedules or service shall be made within five work days from the notification by the Engineer. Schedule alterations may not be made more than once during a seven day period.
- 3.04 The Contractor shall provide and post signs at the contract limits or roadway closure limits informing pedestrians of the shuttle service and schedule. The signs shall be posted a minimum of one week prior to the commencement of work or closure of the roadway. See contract documents for sign layouts and locations.

4. METHOD OF MEASUREMENT:

- 4.01 The quantity to be measured for payment will be in hours the shuttle is operating during the times specified in the special note. Modifications to the original schedule (deletions or additions) will be measured as a percentage change to the original schedule.

5. BASIS OF PAYMENT:

- 5.01 The unit price bid shall include the cost of furnishing all labor, materials and equipment necessary to satisfactorily complete the work.
