

ITEM 619.1001xx25 - INTERIM PAVEMENT MARKINGS, STRIPES (6")

1. DESCRIPTION:

- 1.01 The provisions of sections 619-1.07 of the standard specifications shall apply: "This work shall consist of furnishing, applying, maintaining, and removing interim pavement markings as shown in the contract documents or as directed by the Engineer. Interim pavement markings are intended "for use in diversions, temporary pavement realignments and crossovers, lane shifts and closures, and other traffic patterns associated with construction activities. Interim pavement markings are intended for use for a given phase or season, for a maximum of 1 year."

2. MATERIALS:

- 2.01 All the provisions of section 619-2 shall apply.

3. CONSTRUCTION DETAILS:

- 3.01 All the provisions of section 619-3 shall apply.

4. METHOD OF MEASUREMENT:

- 4.01 Interim pavement marking: The quantity for payment will be in lineal feet to the nearest whole foot measured along the centerline of the pavement stripes installed and will be based on a 6" wide stripe. No measurement will be made for the length of skips in the dashed line.
- 4.02 Measurement for installation of striping of striping with a width greater than 6" will be made by the following method:

$$\frac{\text{Width of Striping (in.) X Number of Feet}}{6 \text{ inches}}$$

5. BASIS OF PAYMENT:

- 5.01 All the provisions of section 619-5 shall apply.

NOTE: xx = Material

- 01 = Traffic Paint,
02 = Epoxy Paint,
03 = Removable Tape,
04 = Removable Wet Reflective Tape,
05 = Traffic Paint Supplemented with Raised Markers.
