

ITEM 636.75020425 - EMERGENCY BRIDGE REPAIR OVERHEAD AND PROFIT - PERCENT

1. DESCRIPTION:

- 1.01 This work shall consist of paying the Contractor for overhead and profit on the cost of the labor and material related to structural repairs to bridges due to impact or deterioration. The purpose of this pay item is to establish a percentage that will be multiplied against the cost and to calculate the amount due the Contractor for overhead and profit. The response time to start work will be twenty-four (24) hours from written notification by the Division Director.

2. MATERIALS:

- 2.01 The materials and methods used for the repair shall meet the requirements of the current Standard Specifications as amended by the Special Notes which are a part of this Contract.

3. CONSTRUCTION DETAILS:

- 3.01 Construction detail requirements shall be determined at the time the “scope of work” is defined by the Engineer as described in the Special Notes.

4. METHOD OF MEASUREMENT:

- 4.01 Under this item the Contractor is to enter as the bid, a whole percentage for overhead and profit which will be multiplied against the actual cost of labor and material to determine the amount due to the Contractor for a 24 hour response.
- 4.02 For the purpose of bidding, the fixed price in the Engineer’s Estimate for labor and material provided in structural repairs to a bridge shall be used as the quantity for this item.

5. BASIS OF PAYMENT:

- 5.01 The actual overhead and profit payment will be determined by multiplying the Contractor’s bid percentage against the cost of labor and material for structural repairs to bridges.
- 5.02 An additional amount of overhead and profit on subcontractor’s work services and fees will be as specified in the “Bidding” section of the Special Notes – Bridge Where and When Contract.
