

**ITEM 606.3010--25    REMOVE AND STORE CONCRETE BARRIER**

**1.     DESCRIPTION:**

- 1.01    This work shall consist of removing and storing concrete barrier as shown on the plans or as ordered by and to the satisfaction of the Engineer.

**2.     MATERIALS:**

- 2.01    Not Specified.

**3.     CONSTRUCTION DETAILS:**

- 3.01    The Contractor shall remove the existing concrete barrier full section or half section (including backup posts, connecting hardware and delineators where applicable) from the site. Removal shall be in a direction against the flow of traffic to avoid blunt end impacts.
- 3.02    The Contractor shall neatly store and/or stack the barrier at locations designated by the Authority. The work shall be done in a workmanlike manner so as to salvage all usable parts.
- 3.03    The designated storage location shall be as shown on plans and in proposal.

**4.     METHOD OF MEASUREMENT:**

- 4.01    The quantity of concrete barrier, either half or full section style, shall be the number of linear feet measured along the centerline from end to end of each barrier section, including end sections if any.

**5.     BASIS OF PAYMENT:**

- 5.01    The unit price bid per linear foot for this work shall include the cost of all labor, equipment and materials necessary to complete the work, including transportation to the designated storage location.
