

ITEM 607.1901--25 - REMOVING RIGHT-OF-WAY FENCE

1. DESCRIPTION:

- 1.01 The Contractor shall remove existing Right-Of-Way fence in accordance with the plans, and specifications, and as directed by the Engineer.

2. MATERIALS:

- 2.01 Fencing hardware shall conform to the requirements of Subsection 710-10.03.

3. CONSTRUCTION DETAILS:

- 3.01 The Contractor shall remove and dispose of the existing Right-of-Way fence as shown on the plans or ordered by the Engineer. This shall include the removal of the existing concrete footings on the fence post and backfilling with suitable material. All excavation and backfill shall conform to Section 203 - "Excavation and Embankment."
- 3.02 The existing fence shall be removed to the point shown on the plans or as ordered by the Engineer. Should any fence remain in the run, the remaining end section of the fence shall be modified to adequately secure the fencing. This section shall be modified to include brace wires and rods, stretcher bars, bands, etc. to secure the fencing in a manner similar to the existing end section or as ordered by the Engineer. Parts salvaged from the removed portion acceptable to the Engineer may be reused in the end sections. Additional hardware as required shall be furnished by the Contractor.

4. METHOD OF MEASUREMENT:

- 4.01 This work shall be measured by the actual number of feet of fence removed in accordance with the plans or as directed by the Engineer. An additional 20 foot allowance will be paid for each end section modified to secure the remaining fence.

5. BASIS OF PAYMENT:

- 5.01 The unit price bid per foot of work shall include the cost of all labor, equipment and materials necessary to complete the work, including the cost of any fill required to fill the post holes.
