

ITEM 661.0100XX25 – RELOCATING AERIAL ELECTRICAL SERVICE

1. DESCRIPTION:

- 1.01 Under this item, the Contractor shall reimburse the Electrical Utility Company, for work performed and material installed by the Utility Company as specified in the Contract Documents or as ordered by the Engineer.

2. MATERIALS:

- 2.01 All materials will be furnished by the Utility Company for the aerial relocation work. Installation of the service riser on the final pole and relocation/replacement of the underground service to the Thruway Authority transformer(s) is the responsibility of the Contractor who shall perform this work using a qualified electrician.

3. CONSTRUCTION DETAILS:

- 3.01 The Contractor shall establish a schedule with the Utility Company of when and how much of a lead time is required for the relocation work and inform the Engineer.
- 3.02 The Contractor shall coordinate and notify the Engineer three days prior to the transfer of electrical service by the Utility. This is necessary to allow for the seamless transfer of electrical power from the current utility supply to the Thruway Authority standby generators then back to the new electrical service installed by the Utility Company. It is the Contractor's responsibility to notify the Utility Company when the project site is ready for the utility work. The Contractor shall insure that the site is readily and safely accessible to the Utility's workers and equipment, and shall conduct his operations in such a manner as to allow the Utility's forces to perform their work efficiently. The Contractor shall make every effort to minimize the length of time the facility is on stand-by power.

All labor and equipment necessary to accomplish the aerial relocation work shall be furnished, installed and supervised by the Utility Company. The only exceptions are the relocation of the service riser, underground service and survey and stakeout, as needed.

4. METHOD OF MEASUREMENT:

- 4.01 The work under this item will be measured for payment on a dollars-cents basis in accordance with the Specification, the Contract Documents, and as directed by the Engineer.

5. BASIS OF PAYMENT:

- 5.01 The amount set forth in the Proposal is a fixed price for all bidders. Any bid, other than the specified amount shown on the itemized proposal, will be adjusted to reflect the fixed price and the Contractor shall be entitled to payment for this item strictly in accordance with this paragraph. The Contractor may be required to provide an estimated payment to the Utility Company prior to the Utility Company scheduling the relocation work. The actual payment for the item will be based upon the final billing submitted by the Utility Company for work performed, with such billing being subject to approval by the Authority. At such time as the Engineer indicates to the Contractor that the Authority approves any billing submitted by the Utility Company, he shall direct the Contractor to pay the Utility Company the approved amount.

ITEM 661.0100XX25 – RELOCATING AERIAL ELECTRICAL SERVICE

5. BASIS OF PAYMENT: (cont'd)

5.01 (cont'd)

After proof of payment to the Utility Company is received by the Engineer, the Contractor thereafter shall be entitled to the amount paid to the Utility Company plus 5% for the Contractor's preparatory and processing costs associated with this item. The lump sum price, as adjusted to reflect actual payments to the Utility Company, is intended to be reimbursement of the Utility Company for the necessary furnishing of electrical service, with the additional 5% being paid to the Contractor for his costs.

5.02 Payment will be made under:
