**DATES:** This rule is effective from 6:30 a.m. to 6:30 p.m. on October 5, 2013 through October 13, 2013.

**FOR FURTHER INFORMATION CONTACT:** If you have questions on this notice of enforcement, call Petty Officer Bryan Gollogly, U.S. Coast Guard Sector San Diego at 619-278-7267, or by email at [Bryan.R.Gollogly@uscg.mil](mailto:Bryan.R.Gollogly@uscg.mil).

**SUPPLEMENTARY INFORMATION:** The Coast Guard will enforce the special local regulations on the Colorado River for the International Jet Sports Boating Association (IJSBA) World Finals, listed in 33 CFR 100.1102, Table 1, Item 7, from 6:30 a.m. to 6:30 p.m. on October 5, 2013 thru October 13, 2013.

Under provisions of 33 CFR 100.1102, a vessel may not enter the regulated area, unless it receives permission from the Captain of the Port or a designated representative. Persons or vessels desiring to enter into or pass through the restricted waters may request permission from the Captain of the Port or a designated representative. This temporary rule creates a regulated area that will encompass a portion of the waterway that is 1,200 ft wide by 1,000 ft in length, marked by the following coordinates:

34°28.49' N, 114°21.33' W; 34°28.55' N, 114°21.56' W; 34°28.43' N, 114°21.81' W; 34°28.32' N, 114°21.71' W; along the shoreline to 34°28.49' N, 114°21.33' W.

Spectator vessels may safely transit outside the regulated area, but may not anchor, block, loiter in, or impede the transit of event participants or official patrol vessels. If permission is granted, all persons and vessels shall comply with the instructions of the Captain of the Port or designated representative. The Coast Guard may be assisted by other Federal, State, or Local law enforcement agencies in enforcing this regulation.

This notice is issued under authority of 5 U.S.C. 552 (a) and 33 CFR 100.1102. In addition to this notice in the **Federal Register**, the Coast Guard will provide the maritime community with advance notification of this enforcement period via the Local Notice to Mariners and local advertising by the event sponsor.

If the Captain of the Port Sector San Diego or his designated representative determines that the regulated area need not be enforced for the full duration stated on this notice, he or she may use a Broadcast Notice to Mariners or other communications coordinated by the event sponsor to grant general permission to enter the regulated area.

Dated: September 6, 2013.

Please explain why you believe a public meeting would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

## B. Regulatory History and Information

The Coast Guard is issuing this temporary interim rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because publishing an NPRM would be impracticable. A delay or cancellation of the currently ongoing bridge rehabilitation project in order to accommodate a full notice and comment period would delay necessary operations, result in increased costs, and delay the date when the bridge is expected to reopen for normal operations. The Coast Guard will consider comments in issuing a subsequent temporary interim rule or temporary final rule.

For the same reasons mentioned above, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Construction is scheduled to begin on September 15, 2013, and it is necessary to have the rule effective by that date.

## C. Basis and Purpose

Under the Ports and Waterways Safety Act, 33 U.S.C. 1221 et. seq., and Department of Homeland Security Delegation No. 0170.1, the Coast Guard has the authority to establish RNAs in defined water areas that are determined to have hazardous conditions and in which vessel traffic can be regulated in the interest of safety.

This rule is prompted by the navigation safety situation created by the construction of the Tappan Zee Bridge. The Coast Guard has discussed this project with New York State Thruway Authority and Tappan Zee

Constructors, LLC to determine whether the project can be completed without channel closures. While the majority of construction activities during the span of this project will not require waterway closures, there are certain tasks that can only be completed in the channel and will require closing the waterway. The construction of the bridge will be extremely complex and presents many safety hazards including overhead crane operations, overhead cutting operations, potential falling debris, and barges positioned in the channel with a restricted ability to maneuver. At present, New York State Thruway Authority and Tappan Zee Constructors, LLC has not submitted a plan for waterway closures.

## D. Discussion of the Interim Rule

The Coast Guard is establishing a RNA on the navigable waters of the Hudson River surrounding the Tappan Zee Bridge, NY. This RNA allows the Captain of the Port Sector New York (COTP) to establish speed and wake restrictions and to prohibit vessel traffic on this portion of the river for limited periods when necessary for the safety of vessels and workers during construction work in the channel. The Coast Guard will enforce a five knot speed limit as well as a "NO WAKE" zone and will be able to close the designated area to all vessel traffic under any circumstances, planned or unforeseen, that pose an imminent threat to waterway users or construction operations in the area. Complete waterway closures will be minimized to that period absolutely necessary and made with as much advanced notice as possible. During closures, mariners may request permission from the COTP to transit through the RNA.

Entry into, anchoring, or movement within this RNA during a closure is prohibited unless authorized by the COTP or a designated representative.

If the project is completed before December 31, 2018, the COTP will suspend enforcement of the RNA. The COTP will ensure that any notice of the suspension of enforcement reaches affected segments of the public by all appropriate means. Such means of notification could include, but would not be limited to, Broadcast Notice to Mariners and Local Notice to Mariners.

The COTP maintains a telephone line that is staffed 24 hours a day, seven days a week. The public can obtain information concerning enforcement of the regulated navigation area by contacting the Coast Guard Sector New York Command Center at (718) 354-4353.

## E. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

### 1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The Coast Guard determined that this rulemaking would not be a significant regulatory action for the following reasons: Vessel traffic would only be restricted from the RNA for limited durations and the RNA covers only a small portion of the navigable waterways. Furthermore, entry into this RNA during closure may be authorized by the COTP New York or designated representative.

Advance public notifications will also be made to local mariners through appropriate means, which may include but are not limited to Local Notice to Mariners and Broadcast Notice to Mariners.

### 2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This rule would affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor or moor within the regulated areas during a vessel restriction period.

The RNA will not have a significant economic impact on a substantial number of small entities for the following reasons: The RNA will be of limited size and any waterway closures will be of short duration, and entry into

this RNA during a closure is possible if the vessel has Coast Guard authorization. Additionally, before the effective period of a waterway closure, advanced public notifications may be made to local mariners through appropriate means, which could include, but would not be limited to, Local Notice to Mariners and Broadcast Notice to Mariners

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

### 3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

### 4. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

### 5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and

determined that this rule does not have implications for federalism.

### 6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the “For Further Information Contact” section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

### 7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

### 8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

### 9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

### 10. Protection of Children From Environmental Health Risks

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

### 11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

## 12. Energy Effects

This action is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

## 13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

## 14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves restricting vessel movement within a regulated navigation area. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist and a categorical exclusion determination supporting this determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

(b) *Regulations*. (1) The general regulations contained in 33 CFR 165.10, 165.11, and 165.13 apply within the RNA.

(2) In accordance with the general regulations, entry into, anchoring, or movement within the RNA, during periods of enforcement, is prohibited unless authorized by the Captain of the Port New York (COTP) or his on-scene representative. The “on-scene representative” of the COTP is any Coast Guard commissioned, warrant or petty officer who has been designated by the COTP to act on the COTP’s behalf. The on-scene representative may be on a Coast Guard vessel; New York State Police, or other designated craft; or may be on shore and will communicate with vessels via VHF–FM radio or loudhailer. Such means of notification may include, but are not limited to, Broadcast Notice to Mariners and Local Notice to Mariners. Such notification will include the date and time that enforcement is suspended as well as the date and time that enforcement will resume.

(2) Violations of this RNA may be reported to the COTP at 718–354–4353 or on VHF-Channel 16.

Dated: September 6, 2013.

RIN 1625–AA11

#### Regulated Navigation Area, Gulf of Mexico: Mississippi Canyon Block 20, South of New Orleans, LA

**AGENCY:** Coast Guard, DHS.

**ACTION:** Final rule.

**SUMMARY:** The Coast Guard is establishing a Regulated Navigation Area (RNA) in the Mississippi Canyon Block 20 in the Gulf of Mexico. This RNA is needed to protect the subsurface monitoring and collection dome system above a leaking wellhead from the
