Slide 4.

Four Reports Document Scoping Process

- Scoping Summary Report
- Scoping Comments Report
- Transit Mode Selection Report
- Alternatives Analysis for Bridge Rehabilitation and Replacement Report

Slide 5.

Scoping Summary Report

- Presents project purpose and need
- Describes public outreach program
- Presents summary of public comments
- Affirms September ’08 Recommendations
- Describes alternatives evaluated in the DEIS
- Presents the scope of environmental and transportation studies for the DEIS
- Concludes Scoping Process

Slide 6.

Scoping Summary Report

- Incorporates by reference the results of:
  - Scoping Comments Report
  - Transit Mode Selection Report
  - Alternatives Analysis for Bridge Rehabilitation and Replacement Report
- Includes in the appendices:
  - A. Revised NOI
  - B. SAFETEA-LU 6002 Coordination Plan
  - C. DEIS Outline
  - D. Project Context – Transportanation Plans, Existing Conditions, and Deficiencies
Slide 7.

Scoping Comments Report

- Provides individual responses to public comments
  - January 2003 Scoping Meetings
  - February 2008 Scoping Update Meetings
  - October 2008 Public Information Meetings
- Summarizes comments by category in a detailed matrix format
- Appendix includes copies of all comments received

Slide 8.

Comments Overview

- Comments solicited at all three scoping meetings
- In the form of oral statements, comment forms, e-mail, and letters
- Classified in 44 different categories
- Evaluated and addressed in individual responses
- Very few significant comment regarding the scoping document or purpose and need, most pertain to preferences and DEIS issues

Slide 9.

Slide 11.

Transportation Comments

- Need for transit in the corridor recognized by local communities
- Strong support for transit expressed
- Preferences for various modes

Slide 12.

Environmental Comments

- Relationship of land use and transit-oriented development is important
- Concern about sprawl and growth-inducing impacts
- Suggestions made on various environmental studies
Slide 13.

River Crossing Comments

- Support for bridge replacement
- Support for bridge rehabilitation
- Support for bridge with supplemental tunnels

Slide 14.

Process Comments

- Tiering process questioned
- Concerns about segmentation
- Strong public involvement program encouraged

Slide 15.

Agency Response to Scoping Comments

- Smart Growth and land use planning; reflected in goals and objectives
- Technical comments on transit mode and bridge study
- River ecology and impacts refined
- Modified scope to address secondary and cumulative effects analysis beyond the immediate corridor
- Invited additional Participating Agencies
- Revisit a trestle solution for the Hudson Line connection
Slide 16. Presents background of all previous transit modes and combinations considered.

Detailed analysis of said modes and recommendations for DEIS development.

Draft 9/2008
Final 3/2009

Slide 17. Presents detailed analysis of all rehabilitation and replacement bridge solutions which meet the project purpose and need.

Supports conclusion that all rehabilitation solutions are not reasonable, recommends study and analysis of replacement solutions in the DEIS.

Draft 9/2008
Final 3/2009

Slide 18.
Appendix B
SAFETEA-LU Section 6002
Coordination Plan

- Outlines the extensive outreach efforts to inform and engage regulatory agencies and the public
- Enhances the level of interaction to ensure the project addresses the needs, interests, and concerns of the public
- Identifies lead, cooperating, and participating agencies and their roles and responsibilities

Slide 19.

Appendix C
DEIS Outline

- Developed in coordination with FTA and FHWA
- General outline:
  - Purpose and Need
  - Description of Proposed Action and Alternatives
  - Outreach and Agency Coordination
  - Environmental and Technical Disciplines by Topic
  - Evaluation of Alternatives
  - References, Appendices, and supporting Technical Reports

Slide 20.

Appendix D – Project Context:
Transportation Plans, Existing Conditions, and Deficiencies

- Corridor description
- Existing highway conditions and deficiencies
- Tappan Zee Bridge - existing conditions and deficiencies
- Existing transit services in the corridor
- Existing rail freight service in the corridor

Slide 21. This appendix was prepared in order to comply with the NYSDOT Project Development Manual, which sets out scoping process and documentation requirements.

While the format of this Scoping Summary Report does not exactly mirror the NYSPDM, it does include all of the prescribed elements.
**Public Participation Program**

**Key Elements of the Program**
- Briefings and meetings
  - Inter-Metropolitan Planning Organization
  - Westchester/Rockland Task Force
  - Environmental and regulatory agencies
  - County and local agencies
  - Stakeholder Committee
  - Stakeholders’ Advisory Working Groups
  - Elected officials
  - Non-governmental organizations
  - Affected Communities

**Key Elements of the Program**
- Environmental Justice Program (Title VI)
- Community outreach centers in Westchester and Rockland Counties
- Project Web site (www.tzbsite.com)
- Newsletters
- Open houses
- Media outreach
Slide 25. An important aspect of this project is our Environmental Justice and Title VI Outreach Program. Federal law requires that projects of this nature not have disproportionately high and adverse effects upon certain communities, and that there be no discrimination on the basis of race, color or national origin in programs or activities that receive federal assistance.

Slide 26. This applies to all federal agencies. Minority is defined as: Low income is defined as: Executive Order 12898 also encourages participation of impacted citizens in all phases of decision-making US DOT Environmental Justices guidelines augmented both the NEPA and Title VI provisions.

Slide 27.
Slide 28.

**Transit Mode Recommendation**

- Develop and Analyze:
  - Full-Corridor Bus Rapid Transit for intra and inter county markets
  - Commuter Rail from Orange / Rockland to Grand Central Terminal
  - Begin Tier 2 Transit NEPA process upon conclusion of this study
  - Implement Full-Corridor BRT in most expedient manner
  - CRT advances as circumstances and finances dictate

---

**Bridge Recommendation**

Replacement of Tappan Zee Bridge

- Rehabilitation of existing bridge in-kind is not viable
- Rehabilitation options require extensive new work
- Rehabilitation options retain serious vulnerabilities
- Replacement options have high life cycle (150 yrs)

---

**No Build**

---

New York State Department of Transportation
Metropolitan Transportation Authority Metro-North Railroad
New York State Thruway Authority
Slide 34.

Slide 35.

Slide 36.
Slide 37.

**Financing Study**

- Fall 2008
  - Merrill Lynch wins the bid
  - economic downturn

FHWA/NYSDOT agreed to utilize federal earmark funds for the first step in the Financing Study

Jan 2009 - OSC approves Merrill Lynch 5 yr contract with funding in place for Step 1

Slide 38.

**Finance Status**

Financial Advisor will, in 3 steps over five years:
1) Look at all opportunities, evaluate, and develop “Core Strategies” to refine
2) Support selection of financing solution(s)
3) Implement final financing approach

**Step 1**
- Management Plan approved by DOT, FHWA/FTA
- Start by looking at all possibilities
- “Core Financing Strategies” by the end of 2009

Slide 39.

**Step 1 Finance Study**

**Overall Approach**
Slide 40.

Step 1 Finance Study
Work Flow and Deliverables

Slide 41.

What Are the SAWGs?

- 5 Stakeholders’ Advisory Working Groups (SAWG):
  >> Traffic and Transit  >> Land Use
  >> Environmental  >> Bridge Design
  >> Finance
- Small, hands-on groups with reps from public, private, and nonprofit sectors
- Forum for exchange of information, discussion of issues, and feedback the study team will consider
- Each group is a work in progress

Slide 42.

What Is Expected of SAWG Members?

- 2 - 3 hours/meeting attending working group sessions
- No specialized knowledge necessary - information to be presented and discussed in layman terms
- Interest and commitment to participate in meetings
- Speak up and participate in meeting discussions
- If you represent an organization, keep it informed of SAWG information and give us its feedback
Slide 43.

Transit-Oriented Development Training

- Pilot program initiated to assist communities.
- Training includes fundamentals, site-specific contextual education and meaningful information.
- Collaboration with Westchester and Rockland Counties developing program content.
- Next steps:
  - Outreach to municipalities
  - Select sites as subjects for workshops.
  - Training sessions in the Fall.

Slide 44.

Project Schedule

- Bridge Highway Design 2011 – 2013
- Bridge Construction 2013 – 2017
- Tier 2 Transit Study 2011 – 2013
