

Cashless Tolling

Eliminating Toll Plaza Traffic

Motorists can now pay their toll while maintaining highway speeds.

A temporary cashless tolling facility on the southbound New York State Thruway in South Nyack is helping ease commutes across the Hudson River.

The state-of-the-art system collects tolls at highway speeds via *E-ZPass* and *Tolls by Mail*, detecting classes of vehicles and applying the correct charge.

If you have *E-ZPass*, your toll is collected using the same process that you are already familiar with.

If you don't have *E-ZPass*, cameras photograph your vehicle's license plate as it passes under the overhead equipment. A bill is then automatically sent to the registered owner by U.S. Mail.

Transportation authorities are turning to cashless tolling to reduce congestion, improve safety and reduce air pollution. More than 35 bridges, tunnels and toll roads across the nation use cashless tolling, including the Henry Hudson Bridge and the Golden Gate Bridge.

Sign Up For E-ZPass Today!

1 WIDE REACH

E-ZPass is accepted in 16 states across the Northeast and Midwest.

2 EASY AVAILABILITY

Customers can sign up at E-ZPassNY.com or at *E-ZPass* customer service centers.

3 E-ZPass On-the-Go

Pre-paid *E-ZPass* accounts can be purchased without waiting in line, at select retail locations, MTA bridge and tunnel cash lanes, or even the New NY Bridge project Outreach Centers in Tarrytown and Nyack.
