

Merchant Opportunities at Bicycle/Pedestrian Path Landings

Request for Expressions of Interest

THE PATH

One of the most anticipated features of the Governor Mario M. Cuomo Bridge is its dedicated bike/pedestrian path, which will provide new access for non-motorized commuters across the Hudson River while also offering an exciting recreational opportunity in Rockland and Westchester counties. The 12-foot wide path will feature six scenic overlooks across the length of the 3-mile crossing. Public amenities at either end of the path include restrooms, parking, and public art.

The New York State Thruway Authority (NYSTA) is inviting **Expressions of Interest** from qualified local merchants for designated spaces available this summer at each Landing.

Your proposal should include:

- Nature of your proposed business, including details of products/services being offered.
- Proposed space(s), operating schedule (daily/seasonal) and staffing model.
- Business background, experience and contact information.

Please note:

- Preference will be given to local merchants and Taste NY Farm Market participants.
- Occupancy permit (revocable at NYSTA discretion) and a fee will be required.
- Equipment must meet all NYS Dept of Health and State inspection requirements.

See reverse side for detailed information on the spaces available. **Expressions of Interest are due no later than March 31, 2020** and should be emailed to:

WESTCHESTER LANDING

THE WESTCHESTER LANDING IS LOCATED AT 333 SOUTH BROADWAY IN TARRYTOWN, NEXT TO THE NEW THRUWAY AUTHORITY MAINTENANCE FACILITY.
